

Clear bra packages

Clear Bras are made of clear, adhesive-backed urethane film called “paint protection film”. It is applied to painted surfaces to protect against impact damage (gravel, sand; road debris; scuffs; etc.). We use digital patterns, custom designed for specific vehicles and body styles. The individual pieces of each Clear Bra kit are “plotter cut” to avoid cutting on the vehicle. The kit pieces are meticulously installed by hand to ensure perfect fit, wrapped edges (where possible), minimal seams with no stretch marks, debris, permanent bubbles or other issues. We feature XPEL Ultimate Plus, the self-healing paint protection film with a 10-year warranty and Accutint Bellevue’s 100% satisfaction guarantee.

Packages and popular optional parts:

Full Front Package (Full Hood & Full Fenders) - Protection for your vehicle’s entire front end. **Starting at \$2,099pt.** Prices and coverage are determined by vehicle model. It covers:

Rockers/ Lower Doors/ Rear Splash Guard

On certain vehicles, these areas are vulnerable to damage from road debris. **Call for pricing** as prices and coverages are determined by vehicle model.

Front Splash Guard, Lower Door Dog Leg & Rear Splash Guard

Rear Bumper Top

Many vehicles' rear bumper tops are exposed and vulnerable to damage when the trunk lid/ rear hatch is opened. Unless otherwise protected we can install the Rear Bumper Top. **Starting at \$135pt,** prices and coverage are determined by vehicle model.

Rear Bumper

Protects the entire rear bumper's paint from minor impacts. **Starting at \$685pt,** prices and coverage determined by vehicle model.

Full Rear Bumper

Door sills

With passengers' repeated entering and exiting vehicles, door sills can be scuffed or scratched. Door sill film protects the door sills from this and other minor impacts. Starting at **\$160pt (pair)**, prices and coverage are determined by vehicle model.

Door Sill

A-pillars & Roofline

At highway speeds, these forward facing surfaces are subject to paint damage from road debris thrown high in the air. **A-pillars are \$175pt (pair); Rooflines are \$165pt. Single piece A-pillar/ Rooflines start at \$430pt** and coverage are determined by vehicle model.

A-Pillars & Roofline
